Notes	If the cell is marked green, the respective country falls into the category of low income countries (Poverty Line: 1.9 \$ PPP)							If the cell is marked yellow, the respective country falls into the category of lower middle income countries (Poverty Line: 3.2 \$ PPP)							If the cell is marked green, the respective country falls into the category of upper middle income countries (Poverty Line: 5.5 \$ PPP)						All National Poverty Limits are taken from the World Bank sources (to be found here: http://povertydata.worldbank.org/poverty/country/KHM). If countries are marked in red, the World Bank has not indicated a source or it could not be found. Therefore, alternative sources were used. The figures in 2018 PPP \$ were calculated using the World Bank conversion factor (to be found here: https://data.worldbank.org/indicator/PA.NUS.PRV.T.PP). It was assumed that African households consist of 4.5 persons and have a work force of 1.5. Non-African households have 4 household members and a work force of 1.5						All minimum wages are taken from the International Labour Organization data set. If countries are marked in red, the minimum wage is not listed in the data set. Therefore, alternative sources were used. The figures in 2018 PPP \$ were calculated using the World Bank conversion factor (available here: https://data.worldbank.org/indicator/PA.NUS.PRV.T.PP). It was assumed that African households consist of 4.5 persons and have a work force of 1.5. Non-African households have 4 household members and a work force of 1.5						The information is from the Global Living Wage Coalition. The Global Living Wage Coalition's data on household size and labour force were taken into account. If the cells are marked red, data from the report of the Ankers on Net Living Wage (2019) was used. In this case the following was assumed: African households consist of 4.5 persons and have a work force of 1.5. Non-African households have 4 household members and a work force of 1.5						The commodity groups (e.g. fruits and nuts) are listed according to export volume (in thousand USD).
